INSTRUCTIONS FOR COMPLETING THE FORM

All applicants must provide a sketch map overleaf in respect of all fields to be tested. The sketch must clearly show the location of the field, the total area, the division into sampled units, if required, and any areas not to be sampled. The drill direction **must** be indicated.

If you wish the whole field area to be sampled and for SASA to divide the field equally into the maximum number of sampled units, please tick the box. Otherwise please indicate the number of sampled units on the form and the area of each sampled unit on a sketch map (see example below).
